

PASA Expenses

Running costs of the PASA campus marketplace: school demo and real launch · October 2026

Prices were checked in October 2026 and converted at **₱62.50 per US\$1** (₱62.54–₱62.58 in early October 2026). Services bill in US dollars, so peso amounts move with the exchange rate.

DEMO (NOW)

₱0 / month

Everything on free plans

REAL LAUNCH

≈ ₱3,430 / month

≈ ₱4,620 with paid app builds

BREAK-EVEN

≈ 158 / month

paid transactions (about 5 a day)

	Demo (now)	Real launch
Monthly	₱0	≈ ₱3,430 (₱4,620 with paid app builds)
One-time	₱0	≈ ₱1,563 (Google Play) + business registration
Per transaction	None (payments are simulated)	1.79%–2.23% (+ 12% VAT on the fee) of each GCash or Maya payment

1. What PASA runs on

Service	What it does for PASA
Supabase	Database, log in, photo and document storage, live chat
Vercel	Hosts the website, the web app (iPhone users) and the admin panel
Expo EAS	Builds the Android app (APK)
GitHub	Stores the code (free)
PayMongo (at launch)	Takes real GCash and Maya payments. Not used yet: the demo simulates payments
Remotion	Made the promo video. Free for individuals and teams of up to 3 people; check the license if the team grows

2. Demo / school prototype (current setup): ₱0 per month

Service	Plan	Cost	Limits to know about
Supabase	Free	₱0	500 MB database, 1 GB file storage, 50,000 monthly users. Pauses after about a week with no activity: open the app before a demo
Vercel	Hobby	₱0	Personal / non-commercial use only; 100 GB data transfer a month
Expo EAS	Free	₱0	15 Android builds a month, slower queue
GitHub	Free	₱0	
Domain	None (pasaph.vercel.app)	₱0	
Android install	APK link	₱0	No Play Store listing needed
iPhone install	Web app (Add to Home Screen)	₱0	No App Store listing needed

This is enough for the feasibility study, demos and a test group of students.

3. Real launch: about ₱3,430 per month

Once PASA takes real payments and earns money, the free plans no longer fit: Vercel's free plan doesn't allow commercial use, and Supabase's free plan pauses and has no backups.

Cost types: **Fixed** the same every month, however many students use PASA. **Step-fixed** fixed until usage outgrows the plan, then it jumps to the next level. **Variable** goes up and down with the number of payments.

Monthly costs

Service	Plan	Type	US\$ / month	₱ / month	Why
Supabase	Pro	Step-fixed	\$25.00	₱1,563	No pausing, daily backups (kept 7 days), 8 GB database, 100 GB storage, 100,000 monthly users; includes \$10 server credit
Vercel	Pro (1 seat)	Fixed	\$20.00	₱1,250	Required for commercial use; includes \$20 usage credit and 1 TB data transfer
Domain	Yearly, per month	Fixed	≈ \$1.50	≈ ₱100	About ₱700–₱2,000 a year depending on the name (.com is cheaper than .ph)
Apple Developer Program	\$99 a year, per month	Fixed	\$8.25	₱516	Only for an App Store listing; the iPhone web app works without it
Total			≈ \$55	≈ ₱3,430	

Optional

Service	Type	US\$ / month	₱ / month	When you'd need it
Expo EAS Starter	Fixed	\$19	₱1,188	More than 15 builds a month or faster builds (brings the total to ≈ ₱4,620)
Business email (e.g. Google Workspace)	Fixed	≈ \$7 / person	≈ ₱440 / person	A team address like hello@pasa.ph
Bigger Supabase server	Step-fixed	+\$5	+₱313	Only if the app slows down with many users

Log-in and password-reset emails stay free at this size (for example Resend's free plan, 3,000 emails a month).

One-time costs

Item	Cost	Notes
Google Play developer account	\$25 (₱1,563)	Only for a Play Store listing; the APK link stays free
Business registration	Varies	DTI business name, barangay clearance, mayor's permit and BIR registration. Check current fees
PayMongo account	₱0	No setup or monthly fee

Payment fees (per transaction, only at launch) Variable

Payment method	PayMongo fee	With 12% VAT	On a ₱165 booking
GCash	2.23%	≈ 2.50%	₱4.12
Maya	1.79%	≈ 2.00%	₱3.31
QR Ph	1.34%	≈ 1.50%	₱2.48

These come out of PASA's service fee, so the tutor or seller still gets their full price.

4. Can PASA pay for itself?

PASA earns its **service fee** (currently 10%, set by the admin) on every booking and sale, plus **PASA Plus** subscriptions.

Example month	Amount
200 paid bookings and sales, average price ₱300 (paid to tutors and sellers)	₱60,000
PASA's 10% service fee	+ ₱6,000
GCash fees (2.23% + VAT, on the ₱66,000 total paid)	– ₱1,648
20 students on PASA Plus at ₱49	+ ₱980
Fixed monthly costs (section 3)	– ₱3,430
Left over	≈ ₱1,902

Break-even: each ₱300 transaction leaves PASA ₱30 – ₱8.24 (GCash fee with VAT, on the ₱330 paid) ≈ **₱21.76**.
Covering ₱3,430 a month takes about **158 transactions a month** (about 5 a day), fewer with PASA Plus subscribers.

5. Not included

- **Team time:** the app was built by the group, so there's no development cost here.
- **Marketing:** posters, Facebook ads, booths.
- **Devices** for testing.
- **Taxes** on PASA's income.
